PURPOSE

The purpose of an animal youth project is to achieve the following:

1. To acquire an understanding of the animal industry by preparing for purchasing, caring for, and keeping records on one or more animals.
2. To be able to identify the types and grades of animals and employ efficient methods of marketing.
3. To understand the business aspects and economics of purchasing animals, feeds, facilities, and equipment for an animal project.
4. To develop integrity, sportsmanship, and cooperation.
5. To develop leadership abilities, build character, and assume citizenship responsibilities.

Record Books will NOT be accepted if any of the following are missing or incomplete:

- Signatures
- Complete all pages
 - No blank pages, missing totals, or blank lines on the reflection page.

Youth Livestock Animal Record Book Guidelines

Notes from the judges:

1. Your Record Book should start on the show animal entry deadline date listed on the SEYF website.
2. Record Books should be completed on the animal relating to your current Youth **Animal Project**.
3. **DO NOT** take pages out of order/format.
4. Always double-check your work, especially your math calculations.
5. Have someone check your project story for spelling and grammar before you write it in the final record book.

Project Terms and Explanations:

1. **Project Inventory** – must include pen, feeder, and waterer. Other items may include are clippers, brush, show stick/whip, etc.
2. **Animal Inventory**- List the animals you are exhibiting at the start of your project and any purchased or born during your project. For example, suppose you are showing a beef heifer, and she had a calf during the project timeline. In that case, you will include the calf on the animal inventory page, including the birthdate, the value (market value or personal value), if you kept it or if it died, and the ending value (could increase or decrease)
3. **Date acquired** – **For Project Inventory: list the project year you obtained the item**. For all other sections, a full date of month/day/year
4. **Purchase cost** – What did this item cost you when you obtained it or fair market value? If donated, make a list of the items as donated and put a zero as the purchase cost.
5. **Depreciation**- This will be 10% of the original purchase cost for the items you will still have at the end of the project. This includes items you had at the beginning of the project and items purchased during the current project year. Depreciation is the loss in value of your assets and is an expense. Think of it as lost value because of being a “used” item that you can’t sell for the same “new” item price.
6. **Value of ending inventory**- This is the value at the beginning of the project minus the 10% depreciation for the current year.
7. **Profit/Loss of project**- This is determined by taking the potential income/value of your assets minus what you’ve spent on your project. If the amount is positive, it is considered a net income; if the value is a negative number, it would be a net loss.

PROJECT INVENTORY

An inventory is a record of all the items you use from your project, including the ones you already have when you start the project, the ones you buy this year, and things you will keep at the end of the project.

MISCELLANEOUS EXPENSES

List everything that you spend money on that you will **NOT** have at the end of the project. Do NOT include feed. Non-feed expenses should include entry fees, veterinary expenses, and hoof trimming. Other expendable items such as shampoo, bedding, pictures, dewormer, Etc. are also examples. **DO NOT LIST ITEMS THAT WILL BE KEPT AFTER THIS PROJECT.**

(Examples of items **NOT** to include in this chart: clippers, buckets, brushes, etc.)

[illegible]

FEED EXPENSES

List all feed expenses on this page. List each feed purchased separately. If feeding more than one animal, calculate the cost of one animal. (Example: If feeding two animals you purchased 200 lbs. of feed, Divide 200 lbs. by 2 = 100 lbs. of feed for one animal.) Hash marks are unacceptable. List all expenses in chronological order from the beginning of the project to the end. **Feed supplements will be included as a Feed Expense.**
